Who We Are

Kaluari is a leader in IT, offering comprehensive cloud-based solutions that enhance communication and collaboration as well as safeguard infrastructure, data, networks and cybersecurity for businesses. Our solutions are easy to scale, secure and reliable, guaranteeing operational continuity.

We prioritize understanding of our clients' needs to deliver tailored solutions that meet the unique requirements of each business. As a trusted partner, Kaluari empowers businesses to navigate the challenges of the digital age, thrive in a fast-paced, technology-driven world and remain resilient against the ever-evolving cyber threats.

VISION

Our vision is to establish ourselves as the hub of cutting-edge technology and innovation globally, offering advanced solutions that drive business success. We are committed to delivering state-of-the-art technologies that empower companies to excel and lead in their industries.

MISSION

Our mission is to link every business with secure IT solutions that transform their operations. By providing innovative and reliable technology, we revolutionize how businesses function, ensuring efficiency and protection at every level.

Cloud Server Hosting

Experience effortless cloud server hosting with our expert-led VPS and dedicated server solutions. Affordable and hassle-free, our service ensures peak performance for your website, critical applications (ERP, CRM, HRM), or databases requiring 100% uptime.

Whether you need dedicated hosting or off-site redundancy, our 24/7 support integrates seamlessly with your team, making Kaluari the ultimate choice for businesses seeking reliable, high-performance cloud server solutions.

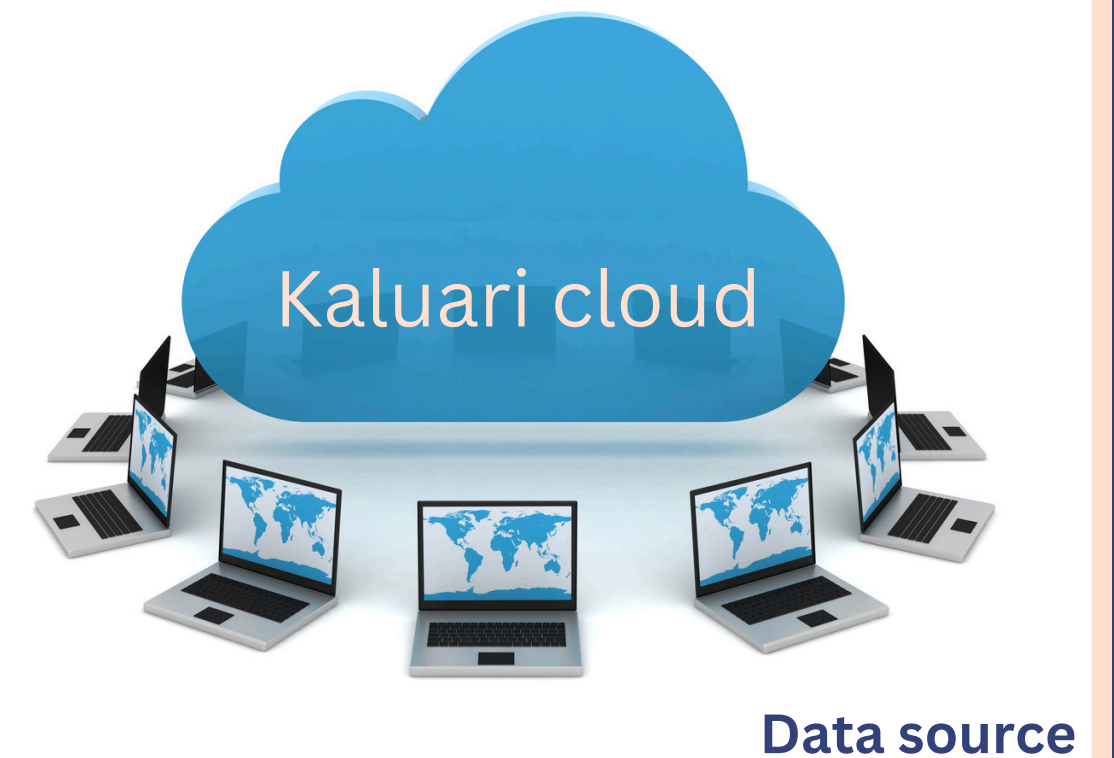

Cloud Backup

We offer Cloud Backup as a Service to ensure your critical data is always secure and accessible. Our solution stores data on highly secure cloud servers across multiple geo-locations, providing robust redundancy and enhanced security for your business. This is designed to be effortless to initiate, manage, and scale, making it a cost-effective choice for companies aiming to protect their vital data.

Disaster Recovery as a Service

Kaluari also offers (DRaaS) to ensure that your data is secure and readily available during a disruption. Our DRaaS solution enables you to recover and restore your systems swiftly, minimizing downtime and keeping your business operations running smoothly, even when disaster strikes.

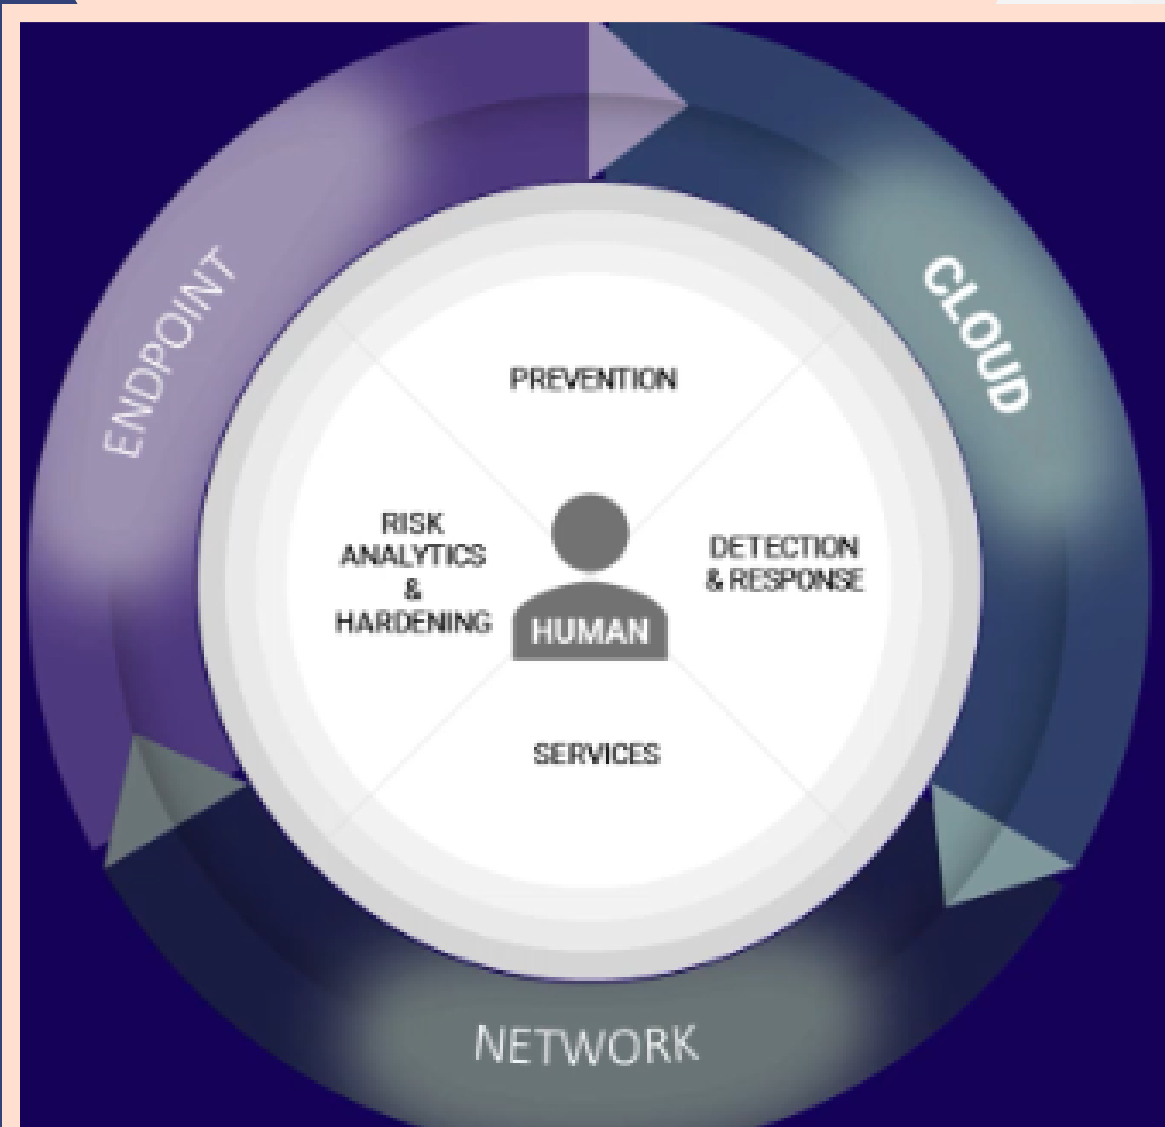

Gateway & End-point security, Data Loss Prevention Solutions

Safeguard your most valuable business data from cyber threats with our top-tier network and endpoint antivirus and firewall solutions. Protect against malware, ransomware, and identity theft with best-in-class security measures, ensuring your enterprise stays secure and resilient against cyber attacks.

We offer leading solutions, such as Sophos firewall devices and licenses, Bitdefender Antivirus, and Kaspersky Antivirus, among others, that provide comprehensive protection tailored to your business needs.

M@ilSafi Email & Collaboration (cloud email hosting)

M@ilSafi email is a secure, reliable, feature-rich, cloud-based email hosting solution that facilitates seamless business email communication while reducing email management costs. It comprises a shared calendar users' administration portal, spam/virus filtering, ample storage and 2FA webmail capabilities, and synchronization functionality.

With M@ilSafi, you can seamlessly communicate and collaborate with your team from anywhere. Share, sync, create, and co-author documents, spreadsheets, and presentations in real-time, all within a secure, cloud-based environment.

This allows you to work in a secure environment with guaranteed 99.99% uptime while offering round-the-clock support, ample storage space, reduced costs, and timely support.

M@ilSafi Email Security

M@ilSafi provides a best-of-breed spam filter and antivirus protection. Deploying the latest threat intelligence and sophisticated multi-layer detection engines, this email security solution protects your network and users from spam, malware, phishing attacks, and other advanced threats.

Email Security For Microsoft 365

Protect your Microsoft 365 emails with M@ilSafi's advanced security. Our solutions enhance Exchange Online Protection (EOP) by guarding against phishing, ransomware, identity theft, and BEC. With AI-driven analysis, domain validation, and real-time monitoring, M@ilSafi fortifies your defenses against evolving threats.

M@ilSafi Transactional Email

Transactional emails are essential for keeping customers informed, whether it's an order confirmation, password reset, or shipping notification. M@ilSafi ensures these emails are delivered promptly and securely, turning each interaction into an opportunity to build trust and loyalty.

M@ilSafi Bulk Email

Boost your email marketing with M@ilSafi's Sendit platform. Easily run personalized campaigns with powerful features, high deliverability, cost-effective pricing, and 24/7 support.

M@ilSafi Email Archiving

Unlike email backups, M@ilSafi's cloud-based email archiving is an automated, offsite service, which means that all inbound and outbound emails are **automatically** pushed to the archiving platform before they are sent or delivered to your mailbox.

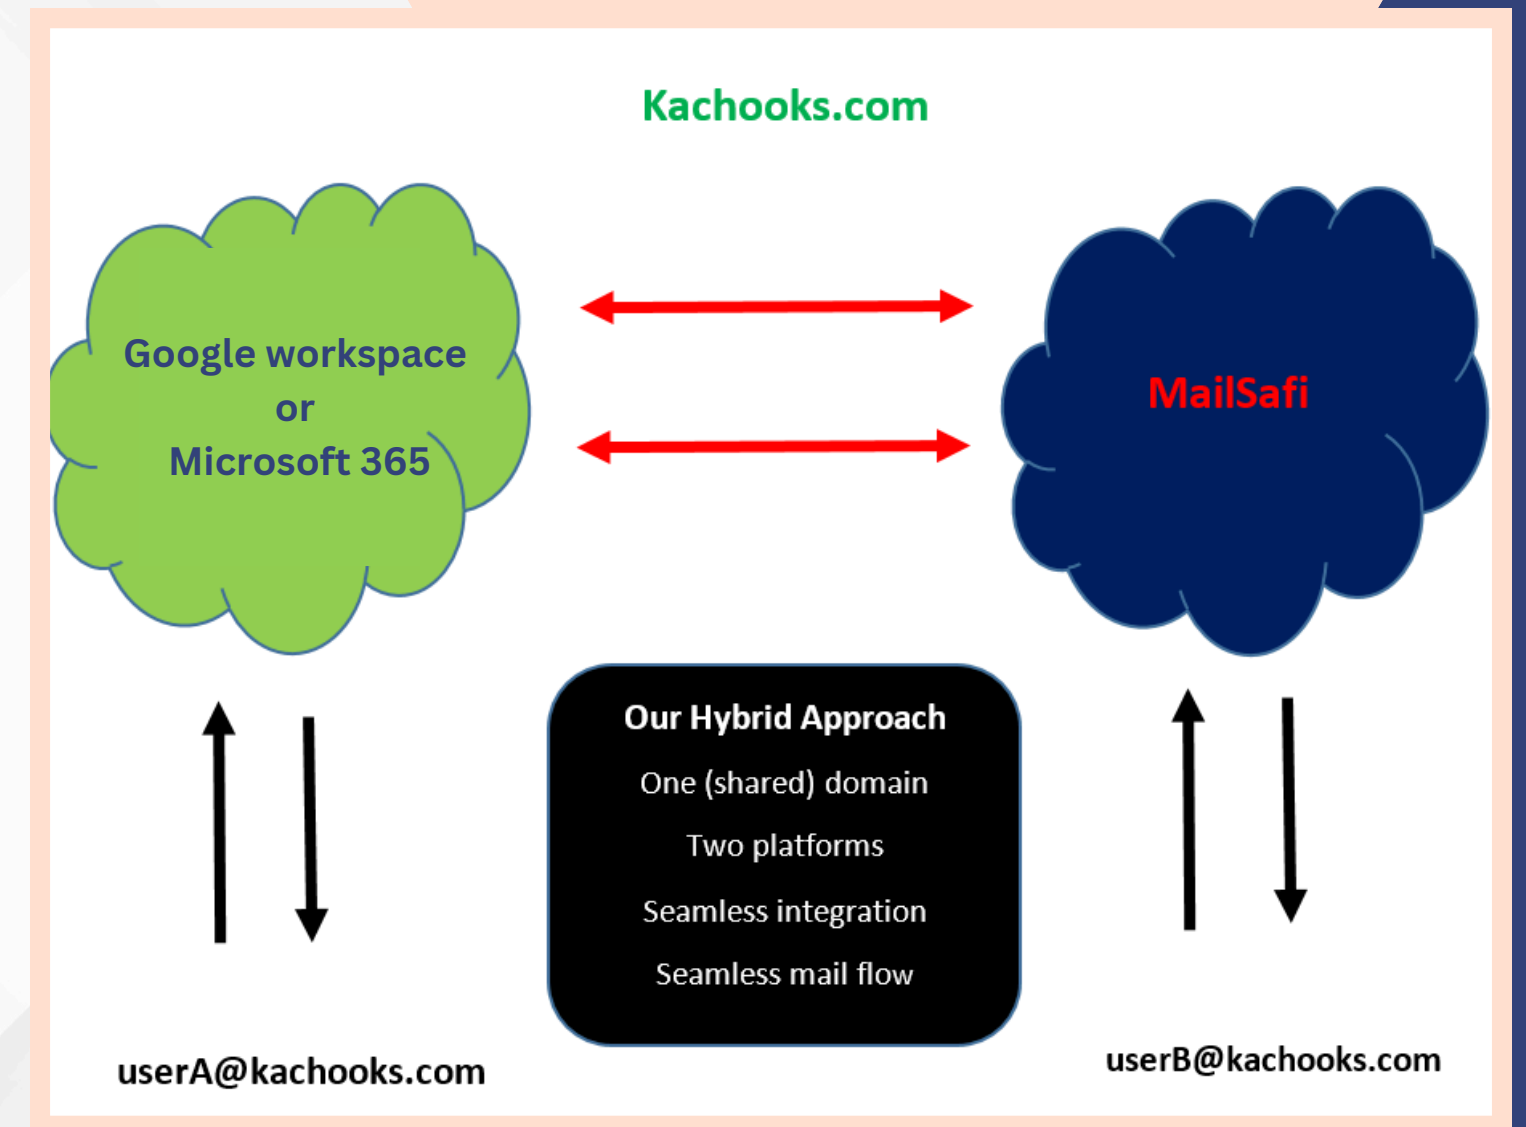

All inbound and outbound emails are archived **before** they reach your mailbox, ensuring they are secure from intentional or accidental deletion. These emails are stored for at least seven years and are automatically deleted only after the retention period expires. With M@ilSafi, you can quickly recover, migrate, and search through your archived emails at any time, from any device, with 24/7 access.

Hybrid Email Hosting

Are you struggling with the high cost of hosting all users on Microsoft 365 or Google Workspace? Consider a cost-effective hybrid solution with Microsoft 365 + M@ilSafi or Google Workspace + M@ilSafi. Keep some users on Microsoft 365 or Google Workspace while migrating others to M@ilSafi, optimizing your budget without sacrificing features, security, or reliability.

Seamlessly integrate and cut costs while maintaining productivity. A hybrid solution with M@ilSafi allows you to significantly reduce your email and collaboration costs, ensuring your team stays connected and productive.

Kaluari Bulk SMS Services

Transform your audience engagement with Kaluari Bulk SMS Service. Integrate our reliable API to instantly send targeted messages to thousands. Engage quickly and effectively.

Microsoft/Windows Licenses

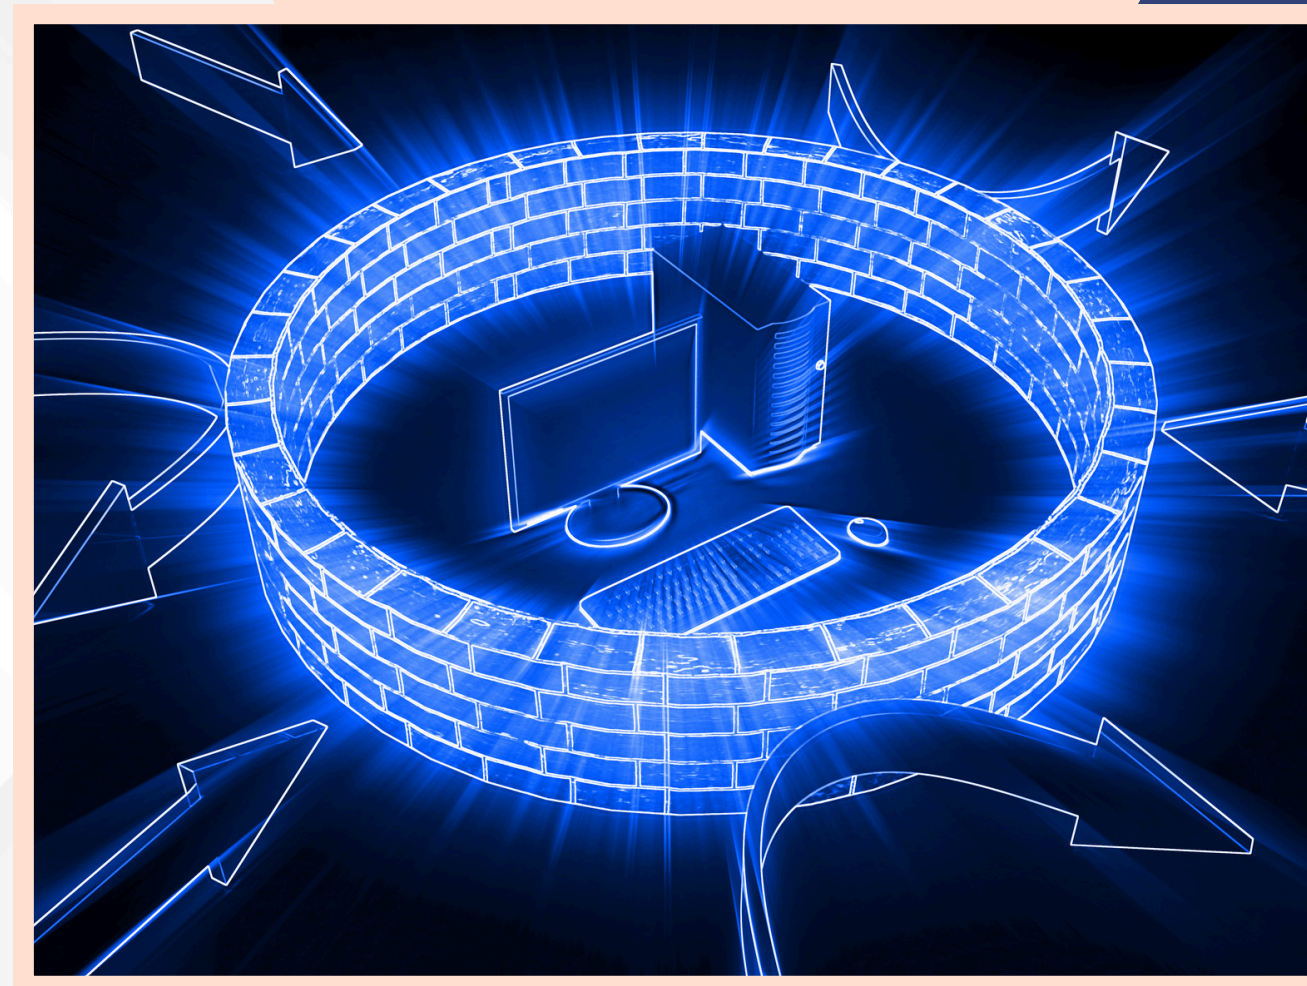

Kaluari is a Windows and Microsoft Cloud Services reseller. You can purchase or renew these licenses for Windows Microsoft 365, Teams, Power BI, Azure, and more. We also provide email security best practices and help improve your Microsoft 365 compliance and security.

Kaluari Managed Security Services (KMSS)

With the evolving cybersecurity landscape and limited resources, many organizations struggle to keep pace with emerging threats. Our Managed Network Security Services (MSS) protect your business from escalating cyber threats, ensuring your critical information assets' confidentiality, availability, and integrity.

Our MSS provides strategic, comprehensive monitoring and management of your security systems, whether in-house or by a trusted third party. We'd like to focus on your core business while we protect your digital assets, keeping you ahead of potential threats.

Cyber Security Awareness Training

Enhance your team's defense with our tailored Cybersecurity Awareness Training. We specialize in preparing staff to recognize and respond to cyber threats, including phishing, spoofing, ransomware, and BEC/EAC.

By understanding your unique environment and challenges, we create customized training that equips your personnel to spot potential dangers and avoid falling victim to online threats. Empower your team with the knowledge and skills to protect your organization from cyber-attacks.

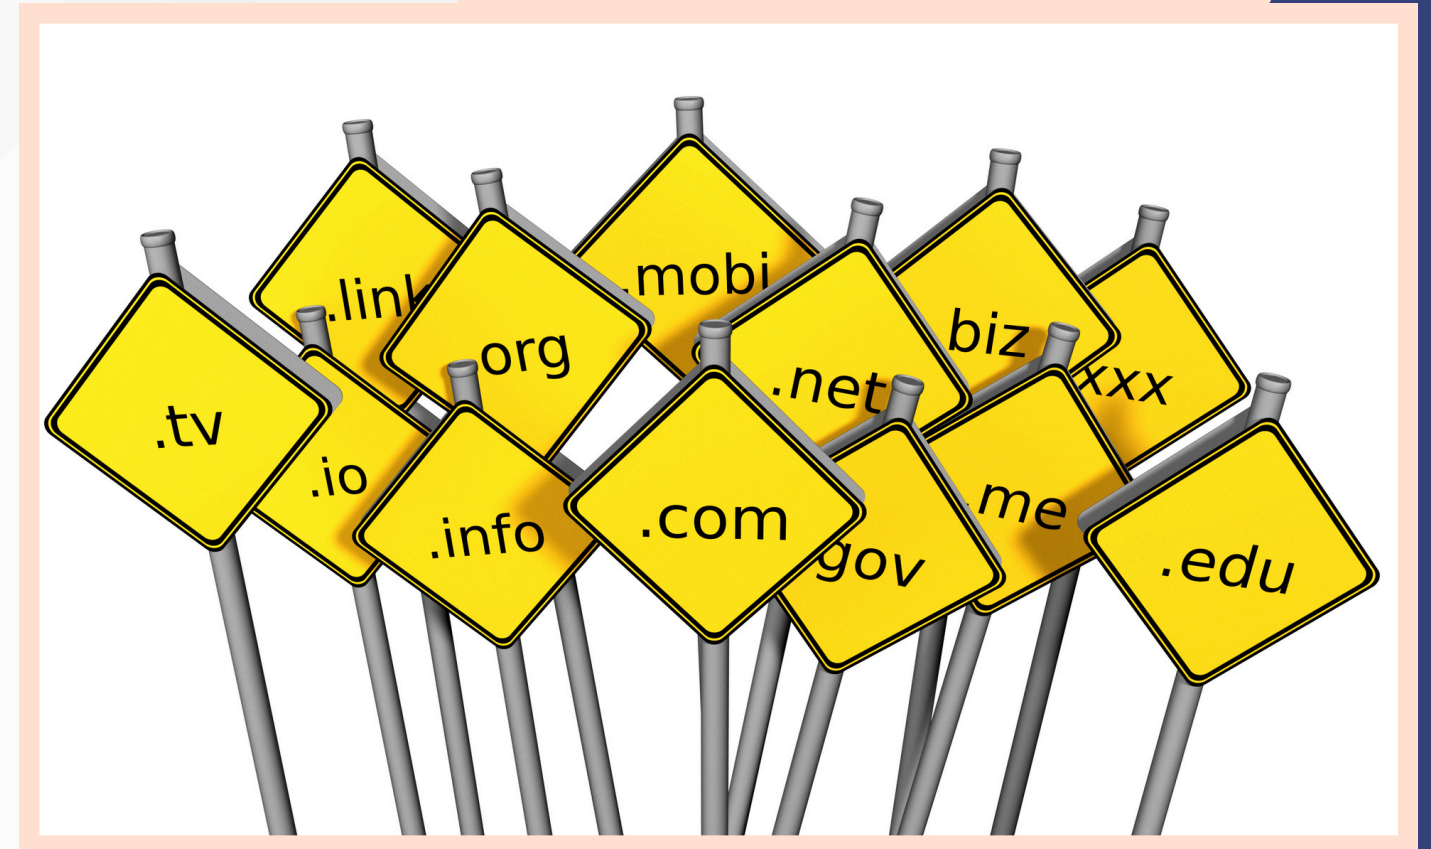

SSL Certificate

An SSL (Secure Socket Layer) certificate encrypts all information transmitted between your website and its visitors, ensuring it remains secure from unauthorized access. By choosing MailSafi SSL certificates, you demonstrate your commitment to protecting your customers' data and building trust.

Other Services

We also offer services to enable businesses to build an online brand identity, reach customers, increase sales, and secure their websites.

- Registration of new domains
- Renewal of existing domains
- Domain Hosting
- Website Hosting
